Book scanning projects have a
20th century problem

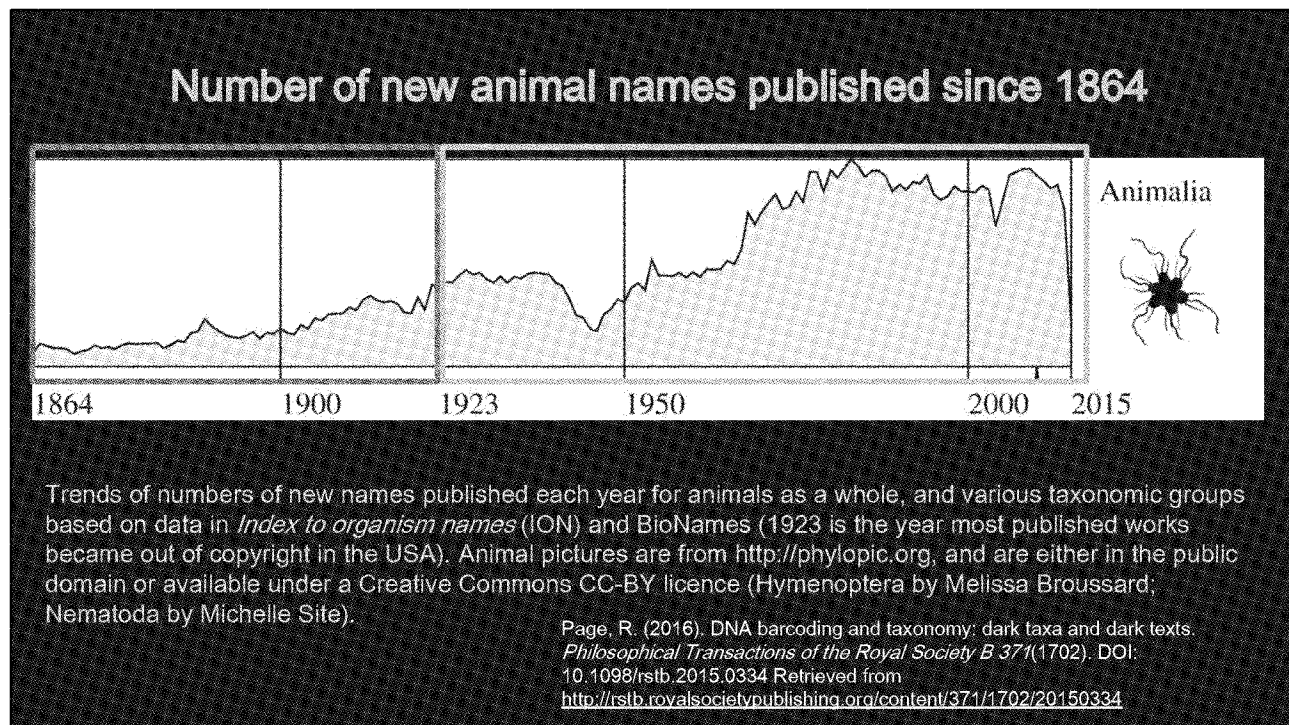

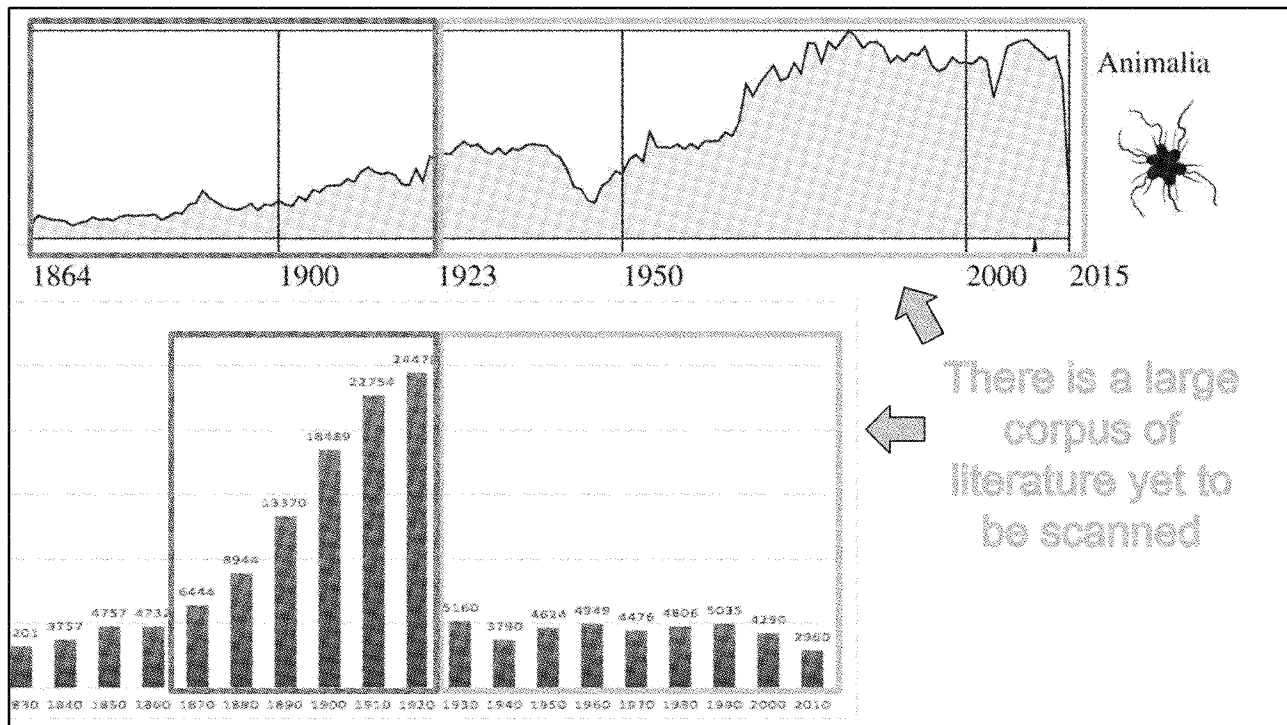

Data limitations: $\frac{2}{3}$ of items in BHL don't have year designation in Item export

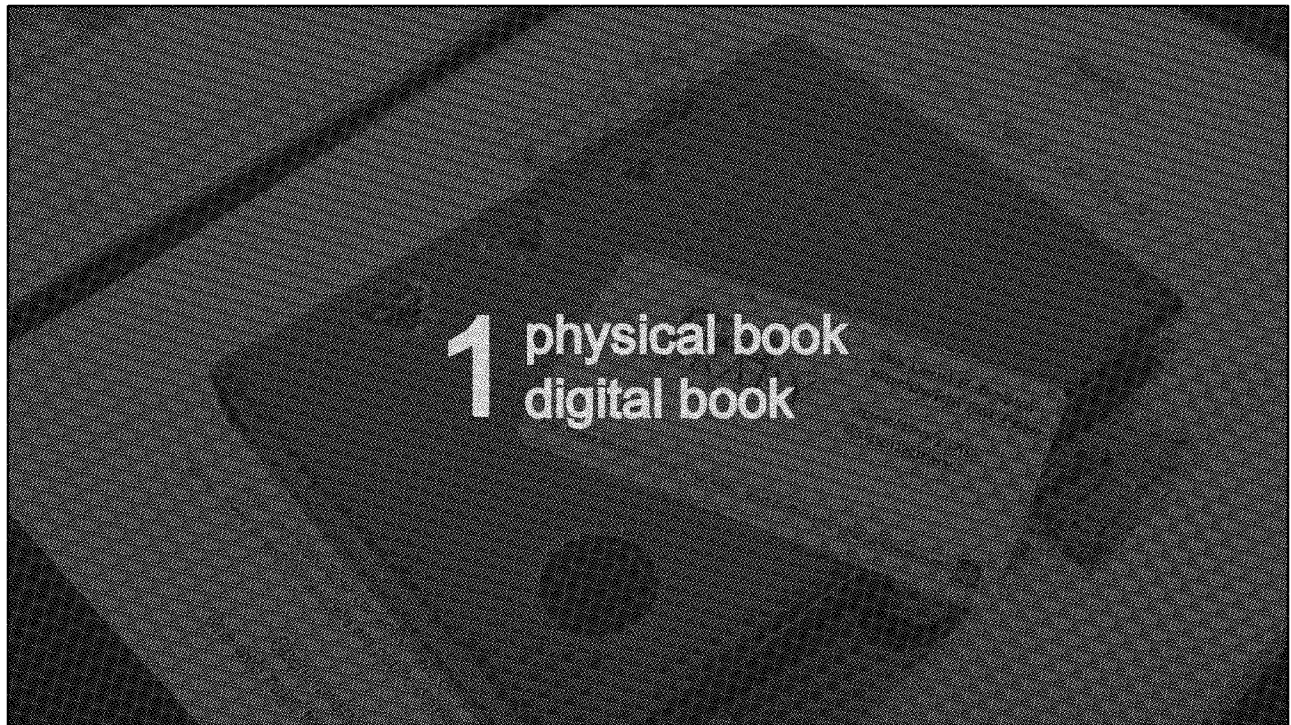

75% of the collection is in the public domain

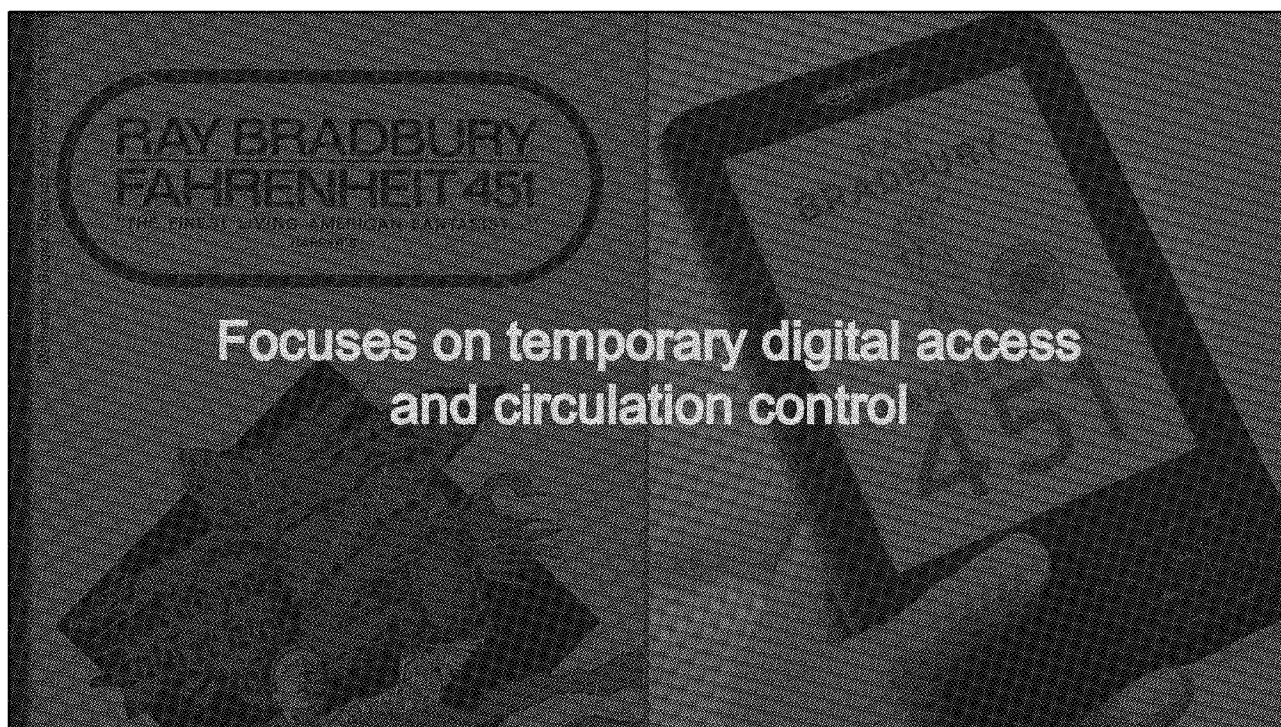

Controlled digital lending

We want to make every library in the US a digital library. If you have the physical book, we will give you access to a digital version.

Controlled digital lending offers: temporary digital access to books and circulation control. This ensures that a library will not have to buy the same content over and over, simply because of a change in format, AND that the author is not hurt by the proliferation of unauthorized copies into the market.

[← Previous Record](#)[Next Record →](#)

The little prince, written and drawn by Antoine de Saint Exupéry, translated from the French by Katherine Woods.

Author Saint-Exupéry, Antoine de, 1900-1944.

Auction Date: 11/17/1973

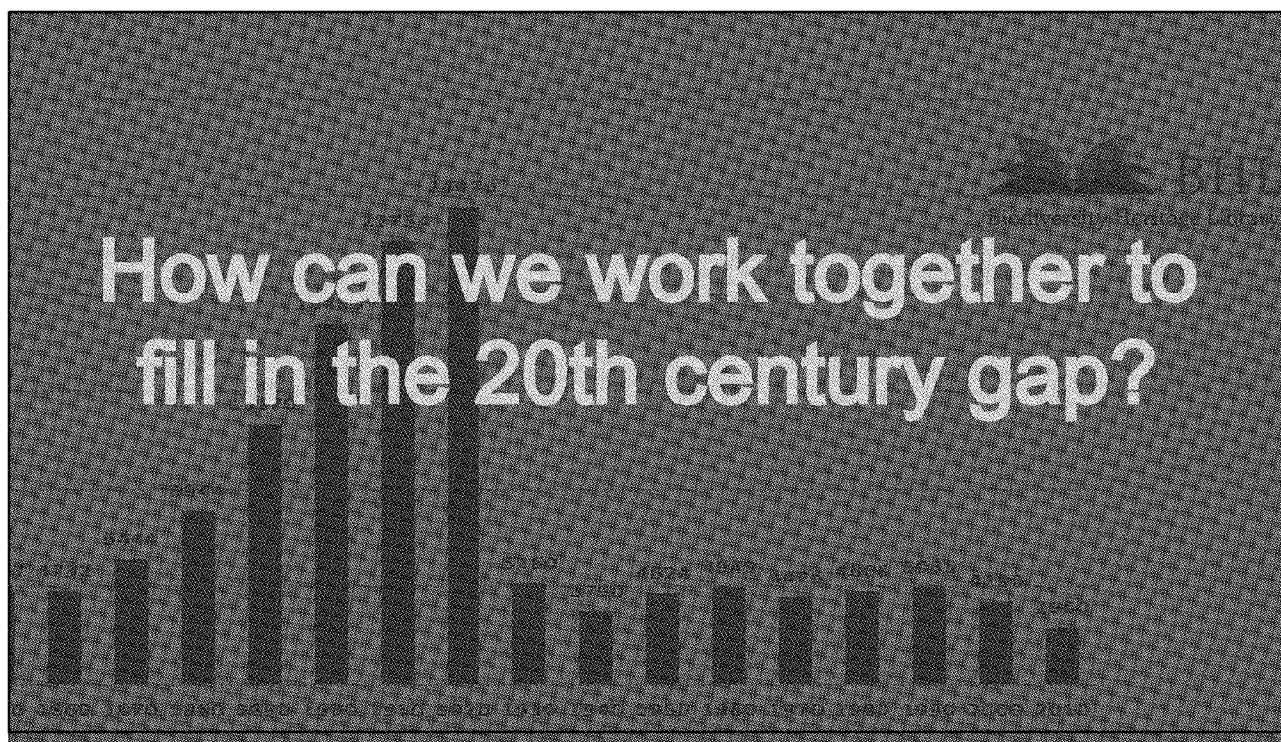

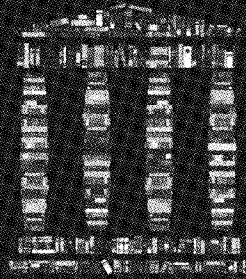

Services for the print disabled

Signup available now

Authorized users who are blind, low vision, or have other print disabilities can get instant loans for our lending collection (no waitlist). We are piloting a program where libraries can help their users sign up for access. If anyone is interested in the program, please see me after the presentation.

We have the capacity for scanning
We have the platform for protecting in-copyright works
